**ORNAMENTAL TREES,
EVERGREENS, SHRUBS,
ROSES, BULBS AND
PLANTS FOR THE GARDEN**

1922

Dunker
FLORIST ESTABLISHED 1898

**NURSERY AND
GREENHOUSES
774 CENTRAL AVENUE**

**40 AND 42 MAIDEN LANE
ALBANY, NEW YORK**

TERMS

NEW ACCOUNTS.—Cash with order or satisfactory references. All bills due 60 days from date of invoice.

C. O. D. ORDERS must be accompanied with a deposit.

DAMAGED PLANTS.—Should a shipment reach you by express damaged, sign for it: "Received in damaged condition," and be sure to notify your express agent at once to inspect the plants. Then notify me immediately and I will collect from express company and make good to you. Do not return plants to me without first communicating.

CLAIMS.—All claims must be made on receipt of goods, or they will not be entertained.

NO WARRANTY.—While I exercise the greatest care to have all **bulbs, plants and nursery stock** true to name, I do not give any warranty, express or implied, and will not be in any way responsible for the crop. If the purchaser does not accept the goods on these terms and conditions, they must be returned at once, and the money that has been paid for same will be refunded.

PRICES.—All prices and terms are subject to change without notice. This is made necessary by unsettled business conditions that affect the cost of materials that we are obliged to buy for operating our business, and also by fluctuations in the prevailing wage rate.

EARLY ORDERS.—To one familiar with the rush at the packing season, it must be obvious that it is impossible to fill an order requiring much time in its preparation on short notice, without doing an injustice to others who have their orders previously booked. In fairness to all, I have adopted the practice of filling orders in the rotation received, unless orders are received far enough ahead of the packing season, with instructions to ship at a given date, so that I can arrange a special shipping date. So I again say—*place your orders as far in advance as you possibly can*, stating when you would like stock sent.

PLANTS BY EXPRESS.—We do not deliver plants free by express, the purchaser paying the charges, which are by the principal express companies, 20 per cent. less than regular merchandise rates. We strongly urge this method of transportation, as it enables us not only to give better values in the form of larger and finer plants, but we also always add liberal "extras" to *help defray charges, and unless instructed to the contrary, all orders are forwarded by express.*

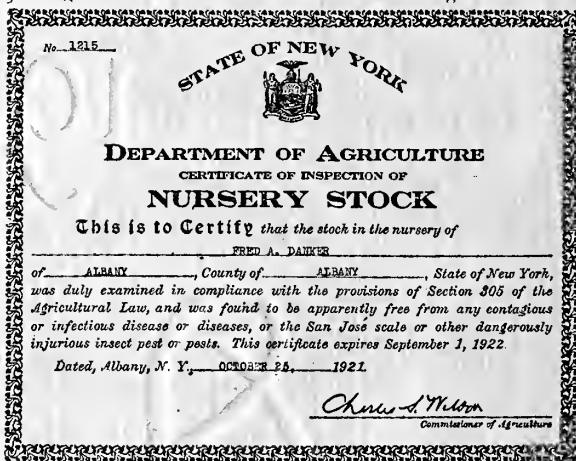

PLANTS BY RAIL.—Shrubs, Hedge Plants and other dormant stock can be forwarded safely by fast freight lines, even to very distant points, at low rates.

PACKING FREE.—We make absolutely no charge for boxes or packing or delivery to any express, freight or steamship line in Albany, N. Y.

SAFE ARRIVAL GUARANTEED.—We guarantee the safe arrival of all plants in any part of the U. S. or Canada when sent by express. *If forwarded in any other manner they are entirely at the risk of the purchaser.*

We would like to impress upon our customers and intending customers that it is to our interest as well as theirs that only strong, healthy stock be furnished. We believe that our satisfied customers will be our best advertisements.

Our greenhouses are always open for inspection.

PICTURES SHOWING OUR GROWTH DURING TWENTY YEARS

Partial View of Our Nursery Where Our Stock is Tested and Grown

Descriptive Book of Plants, Bulbs and Nursery Stock

Danker
FLORIST

This is our yearly book to remind you that our business is growing trees, vines, shrubs and plants for your cultivation in this territory. We now have fourteen large greenhouses, and many acres in our nursery, located on Danker Farm, Central Avenue, Albany, N. Y.

Part View of Store at 40 and 42 Maiden Lane

Every tree, shrub, vine or plant grown by us is strong and rugged for your cultivation, and we claim them better for results in this locality, where Winters are so cold and other seasons are so very uncertain. Every choice you may make from this catalogue will have our prompt and personal attention.

Thanking you for your patronage in the past, and soliciting a continuance in the future,

Respectfully,

Frederick C. Danker

The West City Line cars stop at our nursery and Schenectady Locals and Limited within two blocks.

A Block of Evergreens in Our Nursery

Ornamental Coniferous Evergreens

We gladly furnish all information as to how to plant and care for Evergreens, Shrubs, Trees and Perennials. Always protect with damp material on arrival, to keep the *wind* and *sun* from reaching same. Be careful in watering, as many a plant is killed by giving too much water, especially perennials. During a dry period, give Evergreens, Shrubs and Trees a thorough soaking once a week, after planting, for four or five weeks in succession. Let nature do the rest, but do as much cultivating as possible, especially the day after rain or the watering. Do not water perennials as long as your soil is moist.

In comparing prices on Evergreens, the height alone cannot definitely establish their values. Example: Two plants of the same variety may be exactly the same in height, but in width and compactness one may greatly exceed the other, and in consequence have a greater value.

ABIES. Fir.

Pyramidal trees of extreme hardiness, often attaining great height, thriving in almost any exposed situation. They are justly ranked among the most ornamental subjects available for the embellishment of landscape or lawn. The leaves are usually deep green, lustrous above, and silvery white beneath.

Arizona (Silver Cork Fir). A very hardy species, tall and slender, with silvery green foliage of surpassing beauty. Native of the mountains of Arizona at elevation of 8,000 to 10,000 feet.

	Each
2 ft., transplanted.....	\$4.00
2½ ft., transplanted.....	5.25
3 ft., transplanted.....	7.00
3½ ft., transplanted.....	9.00
4 ft., transplanted.....	11.00
4½ ft., transplanted.....	13.00

Brachiphila Nikko Fir. A native of Japan, with quick, rather open growth and dark green needles. We especially recommend it as one of the best Firs.

Each	Each
3 ft.....\$5.00	5 ft.....\$7.50
4 ft.....6.00	6 ft.....10.00
and up.	

concolor (White Fir, or Colorado Silver Fir). The finest of the Rocky Mountain evergreens. A majestic tree and the most dependable Fir in cultivation. Compact, graceful growth, with broad, flat, silvery bluish-green foliage. Perfectly hardy and a rapid grower. Cones 3 to 5 in. long, green or grayish-green.

Each	Each
2 ft., transplanted..\$3.50	3 ft., transplanted...\$7.00
2½ ft., transplanted. 5.00	3½ ft., transplanted... 9.00
4 to 6 ft. specimens.....	\$10.00 to \$25.00

Fraseri (Fraser's Balsam Fir). This is the "She Balsam" of the southern Alleghanies. A slender tree of extreme hardiness. Foliage fragrant in drying, dark green and shining, with pale bands beneath. Cones 2 in. long, dark purple, with yellowish-green reflexed bracts.

Each	Each
2 ft., transplanted..\$4.00	2½ ft., transplanted...\$9.00
2½ ft., transplanted. 5.25	4 ft., transplanted...11.00
3 ft., transplanted. 7.00	4½ ft., transplanted...13.00

ABIES—Continued

umbellicata. One of the most effective Firs. A very hardy tree, tall and slender, with glossy, medium size, dark green foliage, silvery beneath.

Each	Each
3 ft., transplanted. \$10.00	4 to 5 ft. \$15.00

Veitchii (Veitch's Fir). A hardy and beautiful Fir, of slender habit, from the higher mountains of Japan. Foliage bright green above, silvery below. Freely produced cones 2 to 2½ in. long, dark violet-blue changing to brown.

Each	Each
2 to 2½ ft., transplanted. \$4.00	3 ft., transplanted.... \$5.00
	5 to 10 ft. \$12.50 to 25.00

JUNIPERUS. Juniper.

The Junipers form one of the most important groups of evergreens for garden and lawn planting. The arborescent forms make beautiful specimens, while the prostrate varieties are widely used as a ground cover. They embrace species of great hardiness and their pyramidal and columnar forms are very effective in formal gardening, giving an architectural emphasis that is often so very desirable. In our cold climate, these are about the only plants giving this "spiky" effect so much admired in Italian landscapes.

chinensis (Chinese Juniper). A very hardy and ornamental tree of pyramidal outline, with a pleasing grayish-green foliage, and indifferent to extremes of temperature and diversity of soil.

Each	Each
3 ft., transplanted. \$4.00	5½ ft., transplanted. \$15.00
4 ft., transplanted. 7.50	6 ft., transplanted.. 17.50
5 ft., transplanted. 12.50	6½ ft., transplanted.. 20.00

chinensis alba variegata (White-tipped Chinese Juniper). A splendid sort of conical growth and steel-blue foliage, with occasional white tips.

Each	Each
3 ft., transplanted. \$4.50	4 ft., transplanted... \$7.50
3½ ft., transplanted. 6.00	4½ ft., transplanted.. 10.00

chinensis Pfitzeriana (Pfitzer's Juniper). A splendid new Juniper of broad, spreading upright growth, with dark green, plume-like branches. Very hardy and one of the most effective evergreens.

Each	Each
1½ ft. \$3.00	4 ft. \$10.00
2 ft. 4.00	4½ ft. 12.50
2½ ft. 5.00	5 ft. 15.00
3 ft. 6.00	5½ ft. 20.00
3½ ft. 7.50	

chinensis procumbens (Creeping Chinese Juniper). A dense, robust, creeping Juniper, with elongated stems and numerous short branchlets. Foliage is grayish-green. Planting these trees in groups, they form a most effective mat over the ground. They make an attractive planting for hillsides, are splendid for borders of evergreen planting or very suitable for rockeries.

Abies concolor

Each	Each
1½ ft. spread, trans.. \$2.50	2½ ft. spread, trans... \$4.50
2 ft. spread, trans.. 3.50	

communis canadensis (Alpine Juniper). A low-growing and spreading variety, hardy and very attractive. Silvery foliage, very showy.

Each	Each
2 ft. spread, trans.. \$4.00	3 ft. spread, trans... \$10.00
2½ ft. spread, trans.. 7.50	

communis hibernica (Irish Juniper). Very slender, columnar growth, with numerous upright branches. Very formal in outline and invaluable in Italian gardens. Foliage bluish-green.

Each	Each
2 ft., transplanted. \$2.50	3½ ft., transplanted.. \$5.00
2½ ft., transplanted. 3.00	4 ft., transplanted... 6.50
3 ft., transplanted. 4.00	

Kosteri. Glaucous foliage and erect, rather loose, open growth, presenting a graceful appearance. Its blue seed vessels are an added feature.

Each	Each
3-4 ft. \$10.00	4-5 ft. \$12.50

JUNIPERUS—Continued

japonica aurea (Golden Japanese Juniper). A bright golden form of a spreading habit. Excellent for the rock garden.

Each	
2 ft., transplanted.	\$3.75
2½ ft., transplanted.	5.50
3 ft., transplanted....	\$7.50

Sabina (Savin Juniper). A low, bushy, spreading tree, thickly branched with beautiful dark green foliage. Widely distributed in the mountains of southern and central Europe. Splendid for rock gardens. It is very hardy and thrives in the poorest soils, can be trained into any shape.

Each	
2 ft., transplanted.	\$4.00
2½ ft., transplanted.	6.00
Specimen trees.	\$10.00-15.00

Sabina prostrata (Creeping Savin Juniper). Low growing trailing variety of the preceding with spreading branches and grayish-green foliage. Splendid for rock gardens.

Each	
2 ft. spread, trans..	\$3.00
2½ ft. spread, trans..	\$4.00

Sabina tamariscifolia (Tamarisk-leaved Savin Juniper). A beautiful trailing Juniper for rockwork and borders. Dark green, feathery-like foliage.

Each	
1½ ft. spread, trans.	\$3.50
2 ft. spread, trans.	6.00
Specimen...	\$7.50 to \$15.00

virginiana (Red Cedar). This Juniper is well known and can be used in a number of ways, thriving well and making a good appearance in soils and situations where other trees will not grow.

Each	
2 ft., transplanted.	\$1.25
2½ ft., transplanted.	1.75
3 ft., transplanted.	2.50
3½ ft., transplanted.	3.25
4 ft., transplanted...	\$4.00
4½ ft., transplanted...	5.00
5 ft., transplanted...	6.00
5½ ft., transplanted...	7.50

virginia glauca (Blue Virginia Cedar). A very beautiful, vigorous-growing variety, with glaucous blue foliage all the year round.

Each	
3½ ft., transplanted.	\$4.00
4 ft., transplanted.	5.00
4½ ft., transplanted.	6.00
5 ft., transplanted...	\$7.50
5½ ft., transplanted...	9.00
Specimen trees.	\$10.00-25.00

virginia Schottii (Schott's Juniper). Dense and compact in growth, with pyramidal form of the red Cedar, foliage deep green. A beautiful specimen for a background for evergreen clumps.

Each	
4 ft., transplanted.	\$5.00
4½ ft., transplanted.	6.00
5 ft., transplanted...	\$7.50
5½ ft., transplanted...	10.00

PICEA. Spruce.

Spruces are unsurpassed for their ornamental qualities. They are conical or pyramidal evergreens, of great hardiness and usefulness. Splendid for park planting or as lawn specimens, and when placed among other evergreen planting, form a most pleasing contrast. The loftiness and stately spire-like crowns of the Spruces lend a peculiar charm to the landscape. The dwarf forms are valuable subjects for bordering the taller evergreens.

alba (White Spruce). Dense, compact pyramidal tree, with light, bluish-green foliage; very hardy.

Each	
1½ ft., transplanted.	\$1.00
2 ft., transplanted.	1.25
2½ ft., transplanted.	1.75
3 ft., transplanted...	\$2.50
3½ ft., transplanted...	3.50
4 ft., transplanted...	4.50

Juniperus virginiana

compacta. A very compact, slow-growing evergreen with dark green foliage. Very hardy and an acquisition to dwarf plantings.

Each	
2½ ft., transplanted.	\$3.00
3 ft., transplanted....	\$4.00

Engelmannii (Engelmann's Spruce). A choice and valuable Rocky Mountain tree, of dense, pyramidal growth. The young branches are pubescent and clothed with bluish-green foliage, which emits a strong, aromatic odor if bruised. Cones light brown, 2 to 3 in. long. This variety is native to the Rocky Mountains from Alberta and British Columbia to Colorado and New Mexico, Hardy in almost all parts of the country.

Each	
3 ft., transplanted.	\$3.00
3½ ft., transplanted.	5.00
4 ft., transplanted...	\$7.50
4½ ft., transplanted...	10.00

excelsa (Norway Spruce). A tall and picturesque tree of many variations and the most widely cultivated of all the Spruces. As an individual tree, with room to develop, is of pyramidal, symmetrical growth, its lower branches sweeping the ground. Quite hardy, but does not do so well in unprotected places.

Each	
1½ ft., transplanted.	\$0.60
2 ft., transplanted.	1.00
2½ ft., transplanted.	1.50
3 ft., transplanted.	2.25
3½ ft., transplanted...	\$3.00
4 ft., transplanted...	3.75
4½ ft., transplanted...	4.50
5 ft., transplanted...	5.50

PICEA—Continued

excelsa inverta pendula (Weeping Norway Spruce). A remarkable, drooping form of Norway Spruce, with branches hanging close to the body of the tree.

Each	Each
3 ft., transplanted... \$4.00	4 ft., transplanted... \$5.00

orientalis (Oriental, or Eastern Spruce). A graceful, medium-sized conical tree from the shores of the Black Sea. The foliage is a dark, glossy green, densely appressed to the branches. It has a less drooping form than the Norway, fully as hardy and more attractive. It is surely one of the most satisfactory of all the Spruces. The dull violet-purple cones, changing to brown are 3 to 4 in. long.

Each	Each
3 ft., transplanted... \$3.00	4½ ft., transplanted... \$6.50
3½ ft., transplanted... 4.00	5 ft., transplanted... 8.00
4 ft., transplanted... 5.00	Specimens... \$10.00 to 15.00

pungens (Colorado Spruce). A very hardy and fine tree from the Rocky Mountains. The branches are set in regular whorls which diminish in size as they near the top, forming a very symmetrical, pyramidal tree of conical outlines. Leaves glaucous green, rigid and spine-pointed.

Each	Each
2½ ft., transplanted... \$2.50	4 ft., transplanted... \$5.50
3 ft., transplanted... 3.50	4½ ft., transplanted... 6.50
3½ ft., transplanted... 4.50	Specimens... \$10.00 to 15.00

pungens glauca (Colorado Blue Spruce). One of the most attractive evergreens cultivated, entirely hardy; has the same good qualities as the one above but the leaves are of an elegant, glaucous blue tint. Will succeed in locations where many evergreens fail.

Each	Each
3 ft., transplanted... \$5.25	4½ ft., transplanted... \$9.00
3½ ft., transplanted... 6.75	Specimens... \$10.00 to 20.00
4 ft., transplanted... 7.50	

pungens glauca Kosteri (Koster's Blue Spruce). The Blue Spruce of Colorado, greatly improved. An indispensable addition to every estate. The attractive silvery blue color stands out strongly against the green of all other shrubbery and evergreen. A healthy, vigorous grower and very hardy. It is a favorite tree and should be in every garden.

Each	Each
24 to 30 in. \$10.00	4 ft., transplanted... \$18.00
3 ft. transplanted... 12.00	5 ft., transplanted... 25.00
3½ ft., transplanted... 15.00	6 to 12 ft. ... \$30.00 to 75.00

Picea pungens glauca Kosteri

PINUS. The Pines.

Pines are natives of lowlands and mountainous regions and withstand well the cold, bleak winds to which they are subjected. The tall growing varieties are among the most ornamental trees, both for planting as a background in landscape gardening or as single specimen. Their appearance makes them remarkably distinct characters. The dwarf forms are very valuable for landscape, rockery and hillside planting.

austriaca (Austrian Pine). A tall, massive tree, with spreading branches heavily plumed with long, stiff, dark green needles.

Each	Each
2 ft., transplanted... \$2.00	5 ft., transplanted... \$8.00
2½ ft., transplanted... 2.50	5½ ft., transplanted... 9.50
3 ft., transplanted... 3.50	6 ft., transplanted... 12.00
4 ft., transplanted... 5.00	6½ ft., transplanted... 15.00
4½ ft., transplanted... 6.50	7 to 8 ft. \$20.00-27.00

Cembra (Swiss Stone Pine). A distinct type, resembling somewhat the White Pine, but its needles are not so long and it is a much better lawn tree. Foliage very dark green. Makes an excellent tree, adding a touch of very attractive color to the Winter landscape.

Each	Each
2½ ft., transplanted... \$4.00	3½ ft., transplanted... \$6.50
3 ft., transplanted... 5.00	

Mughus (Dwarf Mugho). One of the best dwarf evergreens for rocky banks, terrace slopes, small lawns, and very effective when grown at the corners of entrances, either single or in company with other evergreens. It is broader than its height and sometimes almost prostrate.

Each	Each
1 ft. spread, trans... \$2.00	2 ft. spread, trans... \$5.00
1½ ft. spread, trans... 3.50	2½ ft. spread, trans... 7.50

For WINDOW BOXES—IN WINTER

We can furnish small Spruce, Junipers and Pines, nursery grown, for 50c. and 75c. each, \$4.00, \$6.00 and \$9.00 per doz. Call and inspect our stock, grown especially for window and porch decoration. Plans also furnished for Evergreen plantings about your home.

Our pot-grown Roses grow and blossom the first season

PINUS—Continued

Strobus (White Pine). This Pine grows quickly and makes a most useful and beautiful ornamental tree. For specimen group or mass planting it is extensively used, as well as for shade and shelter belts. The needles are soft and bluish-green.

Each		Each	
2 to 3 ft.....	\$2.00	5 to 6 ft.....	\$5.00
3 to 4 ft.....	2.75	6 to 7 ft.....	6.50
4 to 5 ft.....	3.50	7 to 8 ft.....	9.00

and up.

sylvestris (Scotch Pine). A strong grower, with spreading branches and short, stiff, bluish-green needles.

Each		Each	
2 ft., transplanted..	\$2.00	4½ ft., transplanted..	\$5.00
2½ ft., transplanted.	2.25	5 ft., transplanted...	6.00
3 ft., transplanted.	2.50	5½ ft., transplanted...	7.50

SCIADOPITYS VERTICILLATA

(Japanese Umbrella Pine)

The odd foliage is arranged in whorls of fifteen to thirty long, narrow needles of lustrous, deep green color. A rare tree and a gem in any collection.

Each		Each	
1 ft., transplanted..	\$2.00	3 ft., transplanted...	\$7.50
2 ft., transplanted.	4.00	3½ ft., transplanted...	10.00
2½ ft., transplanted.	5.00		

LARIX EUROPÆA. European Larch.

A fine tree of pyramidal growth. Resembles an Evergreen specimen.

Each	
6 to 7 feet.....	\$6.50
7 to 8 ft.....	8.00

TAXUS. Yews

The Yews are very desirable evergreens, they are highly effective and ornamental in bed, group or specimen planting. Their very large, blackish-green foliage makes a fine contrast with the other evergreens, they withstand clipping well, and are therefore well suited for producing formal effects.

cuspidata brevifolia. A dwarf evergreen of spreading form, eventually making a mass 10 ft. broad, and only 3 to 4 ft. high. The foliage is very dark. Altogether a handsome and most attractive plant.

Each		Each	
1 ft. spread, trans..	\$2.75	2 ft. spread, trans..	\$5.50
1½ ft. spread, trans.	4.00	2½ ft. spread, trans..	7.50

cuspidata capitata. Much like the foregoing, but instead of being so bush-like, carries a center leader. Perfectly hardy and should be found in every evergreen planting.

Pinus austriaca (See page 6).

THUYA. *Arborvitæ*

A group of useful, hardy evergreens of varied forms; especially desirable for formal gardening as they can easily be clipped to any shape and for this reason are almost indispensable. Their clean, neat, compact appearance make them useful in grouping, bedding, bordering and formal gardening, for cemetery and lawn specimens, for hedges, screens window boxes, vases and house decorations.

occidentalis (Common American *Arborvitæ*). The well-known screen and hedge plant. Grows naturally to a tree 40 ft. tall, but can be kept down to any size by shearing.

BOX BARBERRY

The New Hardy Edging and Dwarf Hedge

Not only will Box Barberry successfully take the place of the box border in localities where Boxwood is not hardy, but it gives an additional Autumn charm to the garden by changing the color of its foliage from a pleasing green to yellows and rich reds in Autumn. 4 year stock 70c. each, \$35.99 per 100, \$200.00 per 1000.

Select List of Hardy Climbing Plants

AMPELOPSIS VEITCHII

(Boston Ivy, or Japan Ivy)

The most popular and desirable climbing plant for covering brick, stone, or wooden walls, trees, etc.; when it becomes established at the root, it is of very rapid growth, and clings to the smoothest surface with the tenacity of Ivy; the foliage is of a rich olive green during the Summer, changing to various shades of bright crimson and scarlet in the Fall. In planting Ampelopsis of all kinds, the plants if still in a dormant condition, should be cut down to within 6 in. of the ground, so that the new growth may cling to the wall or tree from the bottom up. If planted out when 2 or 3 ft. high, they would only cling from where the young growth started, leaving the base loose. (See illustration). Extra strong plants, 75c. each, \$6.00 per doz., \$40.00 per 100.

Ampelopsis Veitchii

Ampelopsis quinquefolia

(Virginia Creeper, or American Ivy)

This well known climber is one of the best and quickest growing varieties for covering trees, trellises, arbors, etc.; its large, deep green foliage assumes brilliant shades of yellow, crimson and scarlet in the Fall. Extra strong plants, 75c. and \$1.00 each.

Clematis paniculata

ARISTOLOCHIA SIPHO

(Dutchman's Pipe Vine)

A vigorous and rapid growing climber, bearing singular brownish-colored flowers, resembling in shape a pipe. Its flowers, however, are of little value compared to its fine light green leaves which are of very large size, and retain their color from early Spring to late Fall; perfectly hardy. Extra strong plants, \$1.00 and \$1.50.

CLEMATIS

paniculata (Japanese Virgin's Bower). Strong plants, 50c.
Jackmanii.....\$1.00
Henryi.....1.00

Spiraea Van Houttei—See page 11.

Hardy Deciduous Shrubs

In this class are included the most popular and better known of our hardy flowering and ornamental shrubs. Their popularity is based on the wealth of flowers which they produce and their adaptability to the most ordinary conditions. No class of plants presents to our landscape a greater array of blossoms or a more symmetrical arrangement of their flowers, and once established, with the exception of a periodical trimming, may be left to take care of themselves, increasing in size and beauty from year to year. **All shrubs offered are strong and healthy.**

AMYGDALUS: ALMONDS. Early Spring flowering shrubs, fully in bloom before the leaves appear. The beautiful rose or white flowers snuggle tight to the twigs.

Double White, 2-3 ft. Each \$0.75

Double Pink, 2-3 ft.75

ALTHEA (Rose of Sharon). Blooms late in August and September with brightly colored flowers. Very attractive. Should have a little protection in Winter until established.

White, Pink and Purple. Each 60c.

BERBERIS Thunbergii (Japanese Barberry). An indispensable shrub because of its adaptability for most any purpose. Absolutely the very best hedge shrub for this climate.

	Each	100
1-1½ ft.	\$0.35	\$25.00
1½-2 ft.50	35.00
2-2½ ft.75	45.00

vulgaris. Tall and strong grower, bearing an abundance of red fruit. Each 50c. up.

vulgaris purpurea. Tall grower with purple leaves and red fruit. Each 50c. up.

BUDDLEIA Veitchii (Butterfly Bush). A beautiful flowering shrub, bearing long sprays of lilac-colored flowers with great freedom until stopped by frost. Each 50c. and \$1.00.

CALYCANTHUS floridus (Sweet Strawberry Bush, or Carolina Allspice). A unique shrub of good growth, blossoming oddly at the leaf axils in double, spicely fragrant flowers of chocolate-red. Each 60c.

CLETHRA alnifolia (Sweet Pepper Bush). A handsome little shrub, delightfully fragrant in September when covered with long, showy wands of white flowers. It is valuable for the front of the border as it grows only 1½-2 ft. Each 50c.

COLUTEA arborescens (Bladder Senna). Strong growing shrub, attaining a height of 15 ft.; likes dry and sunny location. Foliage Acacia-like flowers pea-shaped, in long racemes, yellow and cinnabar-red, followed by red, bladder-shaped seed pots. Each 50c.

CORNUS florida (Dogwood). White. 3 to 4 ft., \$1.50.

florida rubra. Red.

The Dogwoods have many desirable qualities to place them amongst the most popular flowering trees. The early Spring flowers are followed with attractive red berries. The leaves have brilliant shades of scarlet in the Fall. Each \$2.50. 3 to 4 ft., and up.

elegantissima variegata. Shrub. Grows 6-8 feet high, with purplish-red branches and beautiful silver variegated foliage. Each 75c.

lutea (Yellowish Twig) Shrub. A striking yellow-branched form, very satisfactory for contrasting. Each 50c.

sibirica (Red Twig) Shrub. Grows 6-8 ft. high, with clusters of fine white flowers, succeeded by a Fall crop of ornamental berries, stem and branches turning to blood-red in Winter. Each 50c.

CORYLUS atropurpurea (Hazelnut). A very good purple-leaved shrub for contrasting. 2 ft., each 75c.; 3 ft., each \$1.00.

CYDONIA japonica (Japanese Quince). This shrub is completely covered with dazzling scarlet flowers in early Spring, followed by small, Quince-shaped fruits which are quite fragrant. 1½-2 ft., each 50c.; 3-4 ft., each \$1.00.

DEUTZIA gracilis. Dwarf growing, densely bushy, its branches wreathed with pure white flowers in May. 1-1½ ft., each 50c.; 2-2½ ft., each 75c.

Lemoinei. Large flowers of pure white, borne in cone-shaped heads. 2-2½ ft., each 60c.

EUONYMUS alatus (Cork-barked Euonymus). Grows 8 ft. high. Small, delicate flowers in late Spring are followed by attractive red berries in the Fall. Curious corky bark, brilliant autumnal foliage. Best for individual planting. 3 ft., each \$1.50; 4 ft., each \$3.50.

europaea. A large shrub, bearing rose-colored capsules with red seeds in Autumn. Striking, conspicuous. 3-4 ft., each 75c.-\$1.00.

EXOCHORDA grandiflora (Pearl Bush). Bears clusters of beautiful white flowers in May-June. 3-4 ft., each 75c.

FORSYTHIA Fortunei. Erect branches and dark green foliage. 2-3 ft., each 50c.; 3-4 ft., 75c.

suspensa. Characterized by its graceful drooping habit. 2-3 ft., each 50c.

viridissima. Erect shoots, spreading branches and narrow, bright, glossy leaves. 2-3 ft., each 50c.

HYDRANGEA arborescens (Hills of Snow). Flowers are similar to the familiar "Snowball" in appearance. A native variety, with white flowers in July. Each 60c. and up.

paniculata grandiflora. Wonderfully attractive when laden with their massive white flowers from August till Autumn. Single specimens, severely pruned every Spring and large beds kept in uniform development are extremely showy. Each 60c., \$1.00, \$2.00 and up.

Tree Form. \$1.50, \$2.00 to \$7.50.

KERRIA japonica. Graceful, slender, drooping branches, laden with a wealth of rich yellow flowers, resembling large Buttercups. May-June. 3-4 ft., each 60c.

LIGUSTRUM amurense (Amoor River Privet). The only Privet for this climate. 1½-2 ft., 100 \$18.00; 3-3½ ft., 100 \$35.00.

LILAC, Common Purple. Each 50c. and up.

Common White. Each 50c. and up.

Tree Form. Each \$2.00 and up.

FRENCH NAMED LILAC. All varieties, 2-3 ft., each \$1.50; 3-4 ft., each \$2.50.

Hugo Koster. (New.) Beautiful shade of lilac.

Geant des Battailles. Large trusses of medium-sized flowers. Single. Blue.

Jules Simon. Very large flowers and trusses; lilac-mauve passing to pale azure. Double.

Mad. Casimir Perier. Very large; white; double.

Mad. Lemoine. A very fine pure white; double.

Michael Buchner. Dwarf; pale lilac; very double.

President Grevy. Very large, handsome soft blue; flowers very double.

LONICERA (Bush Honeysuckle).

fragrantissima. The early pink and white flowers are sweetly fragrant, and its foliage remains till late in Winter. Each 50c.

Morrowii. A spreading variety, growing 4-6 ft. tall. June. Flowers white and bear very handsome fruit. Each 50c. and up.

tatarica alba. A variety of upright habit, with very large, pure white flowers. June. Each 50c. and up.

rubra. Deep rose-pink flowers; early. Each 60c. and up.

PHILADELPHUS coronarius (Garland Mock Orange). A fine old form, 8-10 ft. tall. Its large white flowers in very graceful sprays are delightfully scented. Each 50c. and up.

aureus (Golden Syringa). Valuable for contrasting grouping and the best golden-leaved shrub. Each 50c. and up.

grandiflorus. Very large flowers in June. Each 50c. and up.

Lemoinei. Fine foliage and erect growing, creamy white flowers in June. Each 50c. op.

virginialis. One of the most beautiful new varieties. Strong, tall grower, with very large, double-crested flowers with round petals. Pure white, sweetly scented, clusters of five to seven. Each \$1.00 and up.

PRUNUS pissardii (Purple-leaved Plum). Handsome and distinct little tree, covered with a mass of small, white, single flowers in Spring; later with showy pinkish-purple leaves that deepen in color to the end of the season. Each 75c. and up.

triloba (Double Flowered Plum). The whole tree is decked in a fleecy cloud of very double, light pink blossoms in early Spring before its leaves appear. Very effective on a still leafless landscape. Each 75c. up.

PUSSY WILLOWS. Grow your own Pussy Willows. For cut sprays we offer the giant variety strong shrubs. Each 35c. and up.

RHUS Cotinus (Purple Fringe, or Smoke Tree). A small tree or conspicuous spreading shrub with large leaves; overhung in mid-Summer by mist-like clouds of tiny flowers. These billowing panicles are a light lavender when fresh, very persistent, and give the impression of smoke at a distance. Each 60c. and up.

typhina laciniata (Stag Horn Sumach). A fern-leaved variety with flowers during June and July in panicles. Each 60c. and up.

RHODOTYPOS kerrioides (White Kerria). 3-6 ft. An attractive shrub, with yellowish-green corrugated foliage and large, single white flowers late in May. The black seeds which follow are large and showy. Each 50c. and up.

SAMBUCUS argentea variegata (Elder). Tall, vigorous, black-fruited; its leaves quaintly mottled with white and yellow. Each 50c. up.

aurea (Golden Elder). The golden yellow leaves of this Elder give heightened effects in tone and color. Grows naturally 10-12 ft., but can be pruned into a neat, compact little bush. Each 50c. and up.

SPIRÆA Anthony Waterer. Very free flowering. The best dwarf, bushy, spreading type and with large corymbs brilliantly colored in rosy crimson. Each 50c. and up.

prunifolia, flore pleno (Bridal Wreath). Plum-leaved foliage, tall grower but will prune to any desired height. Its long, curving branches are covered their whole length with small, double white flowers in early Spring. Each 50c. and up.

Thunbergii. Forms a dense, feathery shrub, 3-5 ft. high. Flowers pure white, borne in feathery masses in early Spring. Very attractive. Each 50c. and up.

Van Houttei. One of the very best of all shrubs. A complete fountain of pure white bloom in May and June. Each 50c. and up.

SYMPHORICARPOS racemosus (Snowberry). A well-known shrub with inconspicuous, rose-colored flowers in June and July, followed by large clustered, milk-white fruits which remain far into Winter. Each 50c. and up.

vulgaris (Indian Currant). A medium-sized shrub of graceful habit, with small foliage and flowers, covered with small purple fruit which hangs in Winter. A splendid shrub for hedge and will stand a great deal of shade. Each 50c. and up.

VIBURNUM Carlesii. A new introduction from China. The flower buds are formed in Fall, developing in Spring into large corymbs of flowers, resembling a Bouvardia; of rosy white, exhaling a delicious perfume more powerful than the Jasmine. Being hardy in this climate, it is one of the most valuable shrubs. Each \$3.00.

dentatum (Arrow-wood). 8-10 ft. high. Bright green, heart-shaped leaves turning to purple and red; flowers creamy white, in flat cymes; May and June. The fruits blue-black. Each 50c. and up.

Lantana (Wayfaring Tree). 10-12 ft. May and June. White flower clusters, succeeded by red fruits that later turn black; charming throughout the Summer. Leaves beautifully wrinkled. Each 50c. and up.

Opulus (High Bush Cranberry). 8-10 ft. May and June. Spreading habit. Single white flowers, borne in flat, imperfect clusters. Valued for the brilliant red berries that cling to the leafless branches during the early part of the Winter. Each 50c. and up.

sterilis (Snowball). Guelder Rose, or old-fashioned Snowball. Each 50c. and up.

plicatum tomentosum. Large, flat cymes of pure white flowers, borne along the branches in the greatest profusion in June. The single form of the Japan Snowball. A very handsome and desirable shrub. Each 50c. and up.

WEIGELA Eva Rathke. The most distinct and one of the most attractive varieties. Flowers deep carmine-red. Each 60c. and up.

rosea. A tall-growing shrub, with deep pink flowers in the greatest profusion during June. Each 60c. and up.

Deciduous Trees

Whether for beautifying your country estate, screening some objectionable object, for shade in your dooryard, for windbreaks, for real estate investment, or for the sake of others, plant trees. We carry a large assortment of deciduous trees, especially suitable for Albany or vicinity street and ornamental planting. All our trees are finely shaped, well rooted, and have been transplanted one or more times. Prices here quoted apply to trees ranging from 6 to 10 feet, according to species and variety. We can supply larger specimens of many sorts, with stems varying from 2 to 4 inches in diameter. These trees range in price according to species, size and general make-up. Special prices quoted where a quantity is wanted.

ACER. Maple

		Each
Acer dasycarpum (Silver Maple), 1½ to 2 in. diameter.		
A. platanoides (Norway Maple), 10 to 15 ft. high.		
1¼-1½ in. caliper.	3 -3½ in. caliper.	Each
1½-2 in. caliper.	3½-4 in. caliper.	Each
2 -2¼ in. caliper.	4 -4½ in. caliper.	Each
2¼-2½ in. caliper.	4½-5 in. caliper.	Each
2½-3 in. caliper.		Each

All above are 10 to 15 ft. high; measurement in inches is caliper of tree. All have been well spaced and pruned.

BETULA. Birch

Betula alba (White Birch, Weeping), 6 to 8 ft.	\$3.00
Betula (Paper Birch), 10 to 12 ft.	3.50

Norway Maple

Lombardy Poplar

CASTANEA

Double Flowering Horse Chestnut , 10 to 12 ft.	Each \$5.00 and up
---	--------------------

CATALPA

Catalpa Bungei	Has compact, globular head, 5 to 6 ft. stem. \$3.00 and up
---------------------------------	--

FAGUS. Beech

Fagus ferruginea (American Beech)	\$2.00 to \$3.00
F. nigra , var. purpurea (Purple Beech)	6.00 to 8.00

FRAXINUS. Ash

Fraxinus americana (White Ash), 10 to 12 ft.	\$1.75
---	--------

MAGNOLIA

Magnolia Soulangeana	\$5.00 to \$10.00
M. Halleana stellata	5.00 to 10.00

MALUS

Malus angustifolia . Profuse bloomer, 3 to 4 ft.	\$2.00 to \$3.00
M. Bechtel's Double Flowering Crab , 3 to 4 ft.	2.50

MORUS. Mulberry

Morus alba , var. tatarica pendula (Weeping Mulberry), 5 to 6 ft. stem, 3-year heads.	\$3.00
---	--------

POPULUS. Poplar

Populus fastigiata (Lombardy Poplar)	50c., \$1.00, \$2.50
P. monilifera (Carolina Poplar)	50c., \$1.00, \$1.50, \$2.50 up

PLATANUS. Plane Tree

Platanus orientalis . A rapid growing tree of large size and good form. 10 to 12 ft., 1¼ to 1½ in. diameter	\$2.50 to \$5.00
--	------------------

PRUNUS. Plum

Prunus triloba (Double Flowering Plum)	\$1.50 to \$2.00
---	------------------

QUERCUS. Oak

Quercus coccinea (Scarlet Oak), 10 to 12 ft.	\$4.50 and up
Q. palustris (Pin Oak), 8 to 10 ft.	3.00

SALISBURIA. Ginkgo, or Maidenhair Tree

Salisburia adiantifolia	\$3.00 to \$5.00
--	------------------

TILIA. Linden

Tilia americana (American Linden)	\$2.50 to \$10.00
T. tomentosa (Silver Linden)	2.50 to 10.00

ULMUS. Elm

Ulmus americana (American Elm)	\$2.00 to \$5.00
U. Camperdownii (Weeping Elm)	3.00 to 12.50

FRUIT DEPARTMENT

We are prepared to plan and lay out fruit gardens, making selections of varieties and number of plants necessary for a supply of fresh fruit for family use, and give special prices.

CRAB APPLE

Hyslop. Large, deep crimson; very popular. October.

SUMMER APPLES

Red Astrachan. Large, nearly covered with deep crimson; juicy and tart.

Yellow Transparent. Pale yellow when ripe; flesh tender, juicy, sub-acid; a free grower and early bearer.

AUTUMN APPLES

Duchess. Skin yellow streaked with red. Flesh juicy and good. strong grower and abundant bearer.

Fall Pippin. Large, roundish oblong; yellow; flesh tender, rich and delicious. October to December.

Wealthy. Medium, deep red, juicy, fine quality, productive. October.

WINTER APPLES

Baldwin. Large, bright red, crisp, juicy and rich; very productive.

Delicious. Large, bright red, highest quality.

Northern Spy. Pale yellow, striped with red, good keeper, excellent flavor; grows best in cold climates.

McIntosh. Early Winter Apple. One of the best and most beautiful red dessert Apples.

CHERRIES

Black Tartarian. Sweet, very large, bright purplish-black, tender, juicy, and of rich flavor.

Montmorency. Large, red, very productive, best for preserving, tart. Early July.

Schmidt's Bigarreau. Sweet, large, dark red fruit, strong, vigorous grower.

Yellow Spanish. Late June. Yellow with red cheek; firm, juicy and delicious. The most popular of all light-colored cherries.

PEACHES

Hale, J. H. (New Yellow). Fruit large, globular. Flesh deep yellow, fine-grained, firm, tender and flavor delicious.

Crawford's Early. Fruit large, oblong; skin yellow, red cheek; flesh deep yellow, juicy.

Elberta. Large, yellow, with red cheek; flesh yellow and of delicious flavor.

Rochester. Greatest early freestone, long-keeping, yellow Peach. Good shipper. Very hardy, quality superior.

All Peach trees, \$1.00.

PEARS

Bartlett. Summer Pear. Buttery, very juicy and high flavored; bears early and abundantly. September.

Clapp's Favorite. Summer Pear. Very large, yellowish and melting; flushed red on sunny side. September.

Flemish Beauty. Fall Pear. Large, sweet and good. Grown largely throughout the North.

Kieffer. Autumn Pear. An early and very prolific bearer; wonderfully showy.

Seckel. Autumn Pear. Small, yellowish-brown; flesh very fine grained, sweet, exceedingly juicy, buttery.

PLUMS

Abundance. Amber; flesh yellow; juicy, tender, sweet; productive. September.

Burbank. Large; clear cherry-red; an abundant bearer. September.

Lombard. Medium size; oval, violet-red, flesh yellow vigorous, great bearer. September.

All above Apples, Cherries, Pears, Plums. Each, \$1.50 and up.

QUINCE

The Quince crop is usually reliable and not often destroyed by capricious weather variations. Very much desired for preserves, jellies and canning. Fruits are quite fragrant, and the trees and bloom highly ornamental. Each \$1.50.

GRAPES

Agawam. Dark red or maroon; bunches compact, very large; berries large, oval; pulp soft; flavor sweet and aromatic. Ripens early; is very attractive. One of the best of the red varieties.

Concord. Black and handsome large Grapes; a very hardy, reliable and productive variety, succeeding everywhere.

Wyoming.

Diamond Moor's. White. A vigorous grower, with large, dark, healthy foliage, very hardy. It is a prolific bearer, producing large, handsome, compact bushes.

Niagara. White. Vine hardy and strong grower; bunches very large and compact, many weighing fourteen ounces, sometimes more; berries large, skin thin but tough. The most popular white Grape.

Grapes: 2- and 3-years, each 50c., doz. \$5.00.

GOOSEBERRIES

Industry. Red. Bush a strong grower, and the most productive of the European varieties; fruit large, dark red, mild, sub-acid, sweet and good flavor. Less subject to mildew than others. One of the best for the market.

Each 35c., doz. \$3.00.

RASPBERRIES

Columbian. Purple. A very vigorous grower and very hardy. Delicious for table or canning.

Cumberland. Black. The bush is hardy, a vigorous grower, and exceptionally productive. Fruit of uniform size, and larger than any known black Raspberry.

Early King. Red. This is the best bright red variety under cultivation. It is also the hardiest and least affected by cold of the Raspberry family. Fruit of high quality.

Kansas. Black. Strong, vigorous grower. Standing extremes of drought and cold, and bearing immense, early crops. Berries present a handsome appearance and command highest price in market.

St. Regis. Red. Raspberries for four months. An ever-bearing variety. They are Raspberries of the very highest grade in size, in brilliant crimson color, in firmness, in flavor. This has been aptly termed the "early-till-late" variety, for it is the first red Raspberry to give ripe fruit, while it continues to produce berries without intermission until late in October.

Each 15c., doz. \$1.50, 100 \$10.00.

BLACKBERRIES

Snyder Blackberries.

Doz. \$1.00, 100 \$6.00.

STRAWBERRIES

Layer Plants for Spring.

	100	Doz.
Progressive (Everbearing).....	\$2.50	\$0.30
Wm. Belt	2.00	.30
Brandywine	2.00	.30
Gandy's Prize	2.00	.30

Write for Prices for pot-grown plants, August and September.

Visit our nurseries. We sell shade trees

Dark patch is the odorless Alphano, all ready to be raked into the grass out of sight. For lawns it is a wonder worker.

Dig it around your shrubs. It quickens their vitality and multiplies their bloom.

We have the Agency in Albany for

Alphano Humus

The Ideal Soil Enricher for Lawn and Garden

Here at last is a perfectly balanced soil ration that unfaillingly produces both immediate and long enduring fertility. No odor. No weed seeds. No contagious disease germs. This cannot be said of manures.

It gives the proper tilth to the soil. It loosens up compact ones and binds together loose ones. Defying dry weather, it acts as a soil moistening sponge. Prevents soluble plant foods from leaching away before benefiting the roots.

It contains all the essential soluble mineral plant foods, all of which are now so prohibitively high. The potash alone it contains,

would cost you several dollars; to say nothing of its phosphates and nitrogen.

It is also liberally inoculated with Alphano inoculant, filling it with teeming billions of all the nitrogen-gathering and fixing bacteria for the legumes, such as Alfalfa, Clovers, Peas, Beans and the like.

Alphano is cheap to buy, easy to use, gives quick results the first season, and continues its benefits the next.

It is sweet, dry and finely granulated.

Don't confuse it with the unprepared, often sour, water-logged humus sold under various names.

PRICES:

Special price for direct factory shipments on carload lots.

Your garden will not be a success unless you use liberal amounts of fertilizer.

In planting your vegetable or flower seeds, sow some Alphano right in the drills. It gives the young plants plenty of just the ready food they need, for quick, strong growth

Being odorless, it stimulates both your pleasures and the blooms in your flower garden.

Ask the man who has used Alphano Humus. He knows how good it is from results

You can have a garden of Roses like this by using our carefully selected potted Roses

Best Hardy Garden Roses

While our old customers are familiar with the grade of Roses which we send out, we wish to direct the attention of those who have never planted our stock to the manner in which these plants are prepared. The bulk of our Roses are field-grown plants, having been cultivated in fields during the growing season of 1920. In Fall they were carefully dug, planted in pots and stored in cold greenhouses, where artificial heat is only used to exclude severe frost. Under this treatment the plants develop in the most natural way, and are much superior to stock which has been forced in a high temperature into an unnatural and weakened growth, and to comparatively worthless Roses which are sold so cheaply in a dormant condition.

Rose, Columbia

NEW ROSES OF SPECIAL MERIT

Premier (E. G. Hill, 1919). A new variety that has gained great popularity as a forcing sort. Pure rose-pink, good size, long bud.	Each \$1.00
Irish Fireflame. A single yellow but beautiful in bud form, orange splashed with red.	1.50
Queen of Fragrance (Wm. Paul & Son, 1916). Shell-pink tipped with silver. Noted for its delicious fragrance. Winner of prizes wherever shown.	1.00
Los Angeles (Howard and Smith, 1917). This is by far one of the finest Roses ever introduced; flame-pink, toned with coral fragrance equal to Marechal Neil. Will be as popular as the Jack Rose. Stock limited this year.	1.50
Columbia (E. G. Hill, 1918). Fine pink, very double and grown by hundreds of thousands for market.	1.00
Golden Emblem. Rich, deep golden yellow, beautifully formed, long buds, delightfully fragrant.	2.50
Mrs. S. K. Rindge (Howard & Smith, 1920). Considered the finest yellow Rose; resembles Golden Emblem.	2.50
Miss Lolita Armour (Howard & Smith, 1920). Very unique color, absolutely distinct coral-red with golden coppery-red suffusion, strong grower.	2.50
Rose Marie (Dorner, 1918). Clear rose-pink, claimed to be the very best bedding Rose of its color.	1.50
Wm. F. Dreer (Howard & Smith, 1920). Soft silvery, shell-pink, similar in shape to Los Angeles; strong grower, stiff stems.	2.50
Constance (Pernet Ducher, 1915). A free flowering variety producing beautiful long, orange-yellow buds.	1.00
La Tosca. Silver pink with deeper center; very free grower, with large, double flowers; very free; a splendid bedder.	1.00
Chateau de Clos Vougeot. An ideal Rose of a dazzling rich scarlet, changing to dark velvety crimson, in bloom continuously throughout the season.	1.50

Plant Evergreens. They are beautiful Summer and Winter

HYBRID TEA ROSES

The following varieties bloom all Summer.

Most of these plants are budded or grafted, and while some planters prefer stock grown on their own roots on account of the liability of budded plants to throw up suckers, this will rarely occur if deep planting is practiced, and if a wild shoot should appear it is readily distinguished by its seven small leaves instead of the usual five, and removed close to the root. Much can be said in favor of budded plants, being more vigorous, producing finer blooms, come into bearing sooner, and are just as permanent and hardy as those on their own roots.

	Each	Doz.	100

Our business is growing

Climbing Roses

Baby Rambler and Polyantha Roses

A type of Roses which is very popular for bedding purposes. They form shapely, compact, bushy specimens about 18 in. high, producing in great profusion from early in the season until severe frost immense trusses of small flowers.

Baby Dorothy. Cerise-pink Baby Rambler. Always in bloom.	Each \$1.00
Cecile Brunner. Miniature pink buds, extensively used for Colonial bouquets.	75c.- 1.00
Crimson Baby Rambler, Mme. Norbert Levasseur. Crimson flowers, similar to the popular Crimson Rambler.	1.00
Echo. A new large pink everblooming Rose.	Each \$1.00
Ellen Poulson. A very fine, brilliant pink; large, full sweet-scented; vigorous habit and most floriferous.	1.00
Erna Teschendorff. A sport from Crimson Baby Rambler, the reddest of all dwarf Roses.	1.00

General Collection of Hardy Climbing Roses

American Pillar. A single pink variety of great beauty.	Each 75c. and \$1.00
Climbing American Beauty. Strong grower and a climbing Rose of great beauty. One of the earliest to bloom and very hardy. A Rose of great merit.	75c. \$1.00- 1.50
Christine Wright. Bright wild rose-pink, with flowers 3½ in. in diameter; strong grower. New.	1.00- 1.50
Crimson Rambler. Too well-known to require description. Crimson flowers.	75c.- 1.00- 1.50
Dorothy Perkins. Soft shell-pink.	75c.- 1.00- 1.50
Excelsa. Crimson-maroon. Has Wichuraiana foliage and does not mildew. The best red climber to date.	75c.- 1.00
Goldfinch. Best yellow Rambler.	Each 75c.-\$1.00
Hiawatha. Single ruby-carmine.	75c.- 1.00
Tausendschoen (Thousand Beauties). Delicate pink; large flowering type.	75c.-\$1.00 and 1.50

Paul's Scarlet Climber (New)

A most desirable new climbing Rose, absolutely distinct and is the most brilliant Rose in any class introduced in many years. We have forced this Rose in 1919-1920-1921 with good success for Easter sales, and strongly recommend this as the best large flowering climber. Strong, two-year plants, \$1.00 each.

Write us regarding your favorite Roses if not listed in this catalogue. No doubt we have them. Please remember our stock is not mailing size but large, strong, two- and three-year stock that will produce large quantities of flowers the first year.

All our Roses are potted and sold sprouted, not dormant stock.

Hanging baskets and window boxes for sunny or shady places

Danker's Select Dahlias

We make a specialty of fancy Dahlias, and can offer only a few on this page. Write for our special list.

Come and see our fields while in bloom. The very best will be found in our collection.

We have other good varieties and would be pleased to send you our special Dahlia list. Write for it. Our roots are liberal size and we guarantee all varieties true to name, good and sound, or money refunded.

Danker's Fragrant Peonies

The old-fashioned *Paeonia officinalis* of our grandmother's garden, while still popular because of their early flowering, have been eclipsed by the wonderfully improved sorts introduced in recent years. They are the "Queen of Spring Flowers," and are well adapted for massing in beds, and particularly valuable for planting in groups throughout the perennial or shrubbery border, where their brilliant hues add attraction to all around. Their requirements are so simple—a good, rich, deep soil, and an open sunny position, which, however, is not absolutely necessary, as they thrive almost equally as well in a partly shaded position, and a liberal supply of water during their growing season being sufficient to give an abundance and wealth of flowers which rival the finest Roses in coloring and fragrance, and produce during their flowering season a gorgeous effect not equaled by any other flower. They are perfectly hardy, requiring no protection whatever, even in the most severe climate, are not troubled with insect pests or disease of any kind, and once planted take care of themselves, increasing in beauty each year.

An important point to observe in the planting of Herbaceous Peonies is not to plant too deep. The roots should be placed so that the crowns are covered with 2 inches of soil. Too deep planting is a frequent cause of shy flowering.

Festiva maxima

	Each	Doz.		Each	Doz.
Asa Gray. Pale pink, marbled.....	\$0.75	\$7.50	Marie Calot. Large, pale hydrangea-pink, with darker shadings in the center. Early.....	\$0.50	\$5.00

grandiflora rosea. Bright pink.....	.50	5.00	Queen Victoria. A good early white.....	.35	3.00
			Roosevelt. Rich, dark red.....	.50	5.00

PAEONIA OFFICINALIS

This type is the real old-fashioned Peony and comes into bloom from ten days to two weeks ahead of the above sorts. It is a strong grower, with large, full, double, fragrant flowers.

	Each	Doz.		Each	Doz.
rosea. Bright rose-pink.....	\$0.50	\$5.00	rubra. Bright, glowing, deep crimson.....	\$0.50	\$5.00

All of the above are strong divisions of two and three eyes; large, field clumps, 3- and 4-years old, can be furnished for \$2.00, \$2.50 and \$3.00, according to varieties; for immediate results, these should be planted.

Field of Peonies

Flowers are the sunshine of life

Gladioli

Special Low Prices on High Grade Gladioli Bulbs.

The interest developed in the Gladiolus during the past few years has been tremendous, and thousands of bulbs are now planted annually where dozens were used in the past. Their present popularity is sure to continue and increase, as they are without doubt the most attractive and useful of all Summer flowering bulbs, and as a cut flower through the Summer and Autumn months hold a place that cannot be taken by any other flower.

Wonderful improvements are being made each year in the size, color and beauty of these flowers, and our list comprises only the best colors, and are the same varieties we grow for our own store trade.

Bulbs can be planted for succession each week beginning in April until July 1st. Dig bulbs in October and put in a dry place away from frost and replant the following season.

In cutting Gladioli for the house, it is best to cut the spike as soon as the first one or two lower flowers are open. The remainder will open in water. Remove the faded flowers, cut a little off the stem, and change the water every day; treated in this way a spike will last a week or ten days.

	Each	Doz.	100
America. Conceded to be one of the finest varieties for cutting or bedding ever sent out; color a beautiful, soft, flesh pink; Orchid-like in its coloring and texture; growth and habit perfect.....	\$0.07	\$0.75	\$5.00

Our assorted Gladiolus bulbs are made up of named varieties only. All Gladiolus bulbs will be large blooming size producing one and two spikes.

Coreopsis lanceolata grandiflora—See page 24

Danker's Select Hardy Perennial Plants

Of all the plants that are cultivated for purely ornamental purposes, there are none which have made such rapid strides in public favor as the old-fashioned Hardy Garden Flowers, the inhabitants of the perennial garden. Their popularity is not at all surprising when we consider the many varied and pleasant changes which take place throughout the entire growing season in a well arranged hardy garden, in which every week—yes, every day—brings forth something fresh and new to interest and delight even the most critical. Beginning in April, the early flowering varieties open their flowers, often before the snow has entirely disappeared, and continue, with constantly changing variety, throughout the Summer, until late in the Fall, when only severe freezing weather will stop such persistent late-blooming kinds as Japanese Anemones, Pompon Chrysanthemums, Gaillardias, Phlox, etc.

Plants are forwarded by express unless instructed to the contrary, purchasers paying charges. Small plants may be forwarded by Parcel Post, and if wanted sent in this way add 10 per cent. to value of order to points east of the Mississippi River and 20 per cent. to point west of same.

Special Offer

12 Hardy Perennial Plants, all pot plants, that will bloom the first year, our selection \$2.50

Our plants are large and strong and adapted to this climate. Not field clumps but established pot plants.

Delphinium—See page 24.

Plants for Special Situations

A very large percentage of the disappointments with perennials, shrubs and trees is due to the fact that they are planted without any regard to their individual suitability to the soil and situation in which they are placed. Success would be almost unavoidable were we but to fit our plants to existing situations instead of imposing on them conditions to which they are utterly unsuited. There is not a spot, however trying and uncompromising as it may seem, that does not offer a congenial home to some interesting form of plant life. It remains only for us to choose our plant friends wisely and intelligently to minister to their simple requirements.

The following indications will be found to be of great assistance to you in planning special sections of your garden.

S indicates plants suitable for Sun or Half Shade.

P indicates plants suitable for Partial Shade.

D indicates plants suitable for Dense Shade.

Perennial plants suitable for Rockeries are marked with an asterisk*.

Perennial plants suitable for edging or ground covers are marked with two asterisks**.

At the opening of Spring business, we carry in stock everything listed in this Catalogue, also quantities not listed

CHRYSANTHEMUMS

EARLY FLOWERING CHRYS- ANTHEMUMS

These beautiful, large-flowering Chrysanthemums are entirely hardy, needing just a little dry leaves or straw to keep the sun from injuring the crowns in Winter. Plant them in a rich, well-drained piece of ground, setting the plants a foot apart and pinching out the tops once or twice during the Summer, but not later than July 15. They will make well branched plants that will furnish quantities of flowers after Asters, Dahlias or Cosmos are cut down by frost. The following varieties have been carefully selected and are best suited to our climate.

To secure good pot plants for blooming inside, plants should be taken up and potted not later than August 15, placing them in a shady place and giving plenty of water until they become established.

Early Flowering Chrysanthemums

LARGE EARLY FLOWERING CHRYSANTHEMUMS

Chrysolora. Large yellow, incurved. In flower October 18.

Early Frost. An early bright yellow. In flower October 25.

Sun Glow. Large pure white. In flower October 12.

Golden Glow. Earliest yellow; blooms may be had from August 15.

Golden Queen. Second early yellow. In flower early October.

Mrs. W. T. McNeice. Large pink. In flower October 25.

Oconto. Large early white; new. In flower October 15.

Red Warrior. Bronze. In flower October 25.

Robt. Halliday. Large, light Japanese yellow. In flower October 25.

Pink Perfection. Large second early incurved pink. In flower October 25.

Tints of Gold. Extra early bronze. In flower October 20.

Unaka. Earliest pink.

20c. each, \$2.00 per doz., one each of the above, \$1.75.

Our early Chrysanthemums are the very best obtainable and are grown by the thousand at our greenhouses for cut flowers. We can supply about 25 later varieties for planting in conservatories.

Danker's Superb Hardy Phlox

Probably the most satisfactory of all perennials is the Phlox, and a good space in proportion to the size of the garden should always be given to these plants.

If the early and late varieties are chosen, and the heads of blooms are cut off as soon as the blossoms have faded, the Phlox should blossom from the middle of June until ice has formed.

The ground where Phlox is to be planted should be trenched fully 2 feet in depth, and may be planted in the Autumn, from the 1st to the 15th of October, so that it may become well rooted before Winter; otherwise it should be set out as soon as the frost leaves the ground in the Spring, as growth begins very early.

Whether planted in Spring or Fall, a mulch of old manure thrown around the roots will be of benefit to the plants.

Phlox should be set out 18 inches apart, and if kept well watered will produce both individual blossoms and heads of bloom far larger than otherwise, and amply repay the extra trouble.

In October, after three seasons of flowering, the Phlox should be lifted, the ground again trenched and enriched, the plants separated into bunches of three or four stalks each, and then reset.

The best effects to be had with Phlox are produced by planting masses of each color, not less than six and even as many as two dozen or more plants of one color together. For example, a border of Phlox may begin with palest pink and shading up to dark cherry, then pure white and white with a red eye, and more white, then quantity of red and again white at the end. If in another border the shades of purple are planted with occasional bunches of white, the Phlox will be the pride of the garden.

Type of Hardy Phlox

EARLY LAVENDER BLUE PHLOX

Divaricata Laphami, Perry's Variety. An improved variety, with beautiful lavender flowers that are at their best the last of May. Each 35c., doz. \$3.00.

Phlox Miss Lingard

MOST POPULAR VARIETIES

Antonin Mercie (Medium). Light ground color, upper half of each petal deeply suffused bluish lilac; large, white halo.

Beacon. Brilliant cherry-red.

Bridesmaid (Tall). White; large, crimson-carmine center.

Consul H. Trost (Medium). Pure red, with bright, French purple eye.

Elizabeth Campbell. Very bright salmon-pink, with lighter shadings and dark crimson eye; an entirely new and much wanted shade in Phlox. Each 35c., doz. \$3.00

Europa. White, with crimson-carmine eye; remarkably sturdy.

Geo. A. Strohlein. Bright scarlet, with crimson red eye.

La Vogue. Pure mauve, with aniline-red eye.

Loki. Dwarf salmon-pink.

Miss Lingard. A grand white variety, lilac eye; large, individual flowers; blooms in May and throughout the Summer.

Mme. Paul Dutrie (Tall). A delicate lilac rose, reminding one of some of the beautiful soft pink Orchids.

Mozart (Tall). Ground color white, suffused salmon; aniline-red eye.

Mrs. Jenkins (Tall). The best tall, early white for massing.

Pantheon (Tall). Bright carmine rose.

Selma (Tall). Large flower, pale rose mauve, with claret-red eye.

Von Hochberg. Richest crimson-purple.

W. C. Egan. One of the finest Phloxes yet introduced—a pleasing shade of soft pink. Individual flowers frequently measure 1 1/4 inches in diameter. Each 35c., doz. \$3.00.

Each 25c., doz. \$2.50, 100 \$15.00, except where noted.

Large, undivided field clumps can be furnished. Each 50c., doz. \$5.00

Good plantings of trees and shrubs increase the value of your house

Salvia, Danker's Select

Cannas

No other bedding plant will give the same uniformly good results in our varied and trying climate. They do well in all sections of the country, and stand pre-eminently at the head of the list, succeeding in any sunny position in any kind of soil, but responding quickly to liberal treatment. For best results the beds should be spaded 2 feet deep and a liberal amount of well decayed manure of any kind thoroughly incorporated, and at all times supplying water freely.

NEW CANNAS

The President. An improvement on Fire Bird. Immense florets of bright red color enhanced by extraordinary vigor and perfect healthy foliage. It grows to a height of 5 feet and produces its immense trusses of florets in great profusion. The most sensational introduction of recent years. Each 25c., doz. \$3.00.

Meteor. Massive, erect trusses of deep blood-red flowers produced with a freedom to leave nothing to be denied in effectiveness. Meteor is the best deep red Canna. 5 ft. Each 25c., doz. \$2.50.

Mrs. Alfred Conard. One of the very best Cannas in commerce today. The large, exquisitely shaded salmon-pink flowers are produced in great abundance on robust, upright stalks. 4 ft. Each 25c., doz. \$2.50.

Planting of Cannas

Eureka. The best white Canna for all purposes. The large, substantial flowers are produced on strong, vigorous plants. Each 25c., doz. \$2.50.

Favorite. This is the best yellow Canna spotted with red and received highest award of Society American Florists, 1917. 4½ ft. Each 25c., doz. \$2.50.

Yellow King Humbert (Queen Helen). Identical with King Humbert in habit of growth, but has yellow flowers and green foliage. 5 ft. Each 25c., doz. \$2.50.

Hungaria. The ideal pink bedding Canna; flowers large, in good-sized trusses, produced early, freely and continuously; color not unlike that of the Paul Neyron Rose. Compared with all other pink varieties, it possesses a softness and refinement not found in any other sort. 3 to 3½ ft. Each 20c., doz. \$2.00, 100 \$15.00.

SELECT STANDARD VARIETIES

King Humbert. In this grand Canna we have a combination of the highest type of flowers with the finest bronze foliage. Its flowers measure 6 in. in diameter, produced in gigantic trusses; a brilliant orange-scarlet, with bright red markings; foliage broad and massive, of a rich, coppery-bronze. 5 ft. Each 25c., doz. \$2.50, 100 \$18.00.

Robusta. Bronze foliage; tall and robust grower. When planted in beds with other Cannas this should occupy the center. 6 to 7 ft. Always use Robusta for the center of Canna beds. Each 25c., doz. \$2.50.

Musafolia. Banana leaf Canna. Large, massive leaves, 8 ft. tall, suitable for the center of large Canna beds. Each 25c., doz. \$2.50.

For best effect plant in large masses of one color.

For an effective combination bed, starting from center: No. 1, Robusta, or Musafolia; No. 2, King Humbert; No. 3, Meteor. Edge with Salvia, Coleus or Dusty Miller.

Tuberoses

Dry Bulbs. Each 10c., doz. \$1.00.

One of the most delightfully fragrant and beautiful of the Summer flowering bulbs. By skillful management a succession of flowers may be obtained through the Summer. For early flowers they can be started in February or March in the greenhouse or hotbed; and for a succession they can be planted at intervals as late as July. For flowering in the open border, plant about the middle of May, or as soon as the ground becomes warm.

EXCELSIOR DOUBLE PEARL

Pot-Grown Plants, started in March. Doz. \$1.50.

ISMENE CALATHINA

Large white blossoms, like Amaryllis. Each 25c., doz. \$2.50.

Tuberose Excelsior

Danker's High-Grade Lawn Grass Seed

For Lawns, Grass Plots, Tennis Courts, Golf Grounds, Etc.

Weights 22 pounds per bushel

This **HIGH-GRADE LAWN GRASS SEED** is composed of the very finest re-cleaned grasses, free from weeds and all foreign matter. Where a strictly first quality grass seed is wanted, I can recommend this grade of seed, it requiring only three to four bushels to the acre for new lawns, and one to two bushels for renovating old lawns.

By sowing **HIGH-GRADE LAWN GRASS SEED** you will obtain a beautiful, deep green lawn, which, owing to the varieties used in this mixture, will retain its velvety appearance during the entire Summer.

One quart of our **HIGH-GRADE LAWN GRASS SEED** is sufficient to sow about 300 square feet; an acre will require from three to four bushels. To produce a good lawn, it is always best to sow the seed thickly.

Price: Qt. 35c., 4 qts. \$1.25, 8 qts. \$2.00, bus. \$7.00.

DANKER'S SHADY PLACE GRASS. Special mixture for using on that part of the lawn that is shaded by trees, buildings, etc. Circular, "How to Make a Lawn," mailed upon request. Price: Qt. 40c., bus. \$8.00.

Grow some of your own vegetables, and increase production. Most of our vegetable plants are potted or have been transplanted once or twice and have good roots, not to be compared to plants grown in crowded seed beds.

VEGETABLE PLANTS

CAULIFLOWER PLANTS, Snowball. From hotbed, 50c. per doz., \$4.00 per 100.

CABBAGE PLANTS, Early. 25c. per doz., \$1.75 per 100.

CABBAGE PLANTS, Late. 25c. per doz., \$1.75 per 100.

EGG PLANTS. Ready in May and June. Best variety. Pot plants, 50c. per doz., \$4.00 per 100.

RHUBARB ROOTS. Best early, 15c. each, \$1.50 per doz.

PEPPERS, Sweet. Pot-grown, 50c. per doz., \$4.00 per 100.

HERBS

	Each	Doz.
LAVENDER	\$0.25	\$2.50
MINT15	1.50

SAGE, Holt's Mammoth15	1.50

BEST TOMATO PLANTS

BONNY BEST. An early and productive variety, uniform in size and shape; the color is scarlet, produced in abundance. Pot plants, 50c. per doz.

PONDEROSA. This is one of the largest varieties. Purplish pink color, very solid, few seeds, ripens at mid-season, continues to do so until frost. 50c. per doz.

DWARF STONE. Short, compact plant, requiring little space; Bright red fruit. 50c. per doz.

NEW STONE. Fruit very large and deep; bright scarlet. Best for all purposes. 50c. per doz.

MATCHLESS. A large, bright red Tomato; very solid and meaty. Contains very few seeds and the flavor is excellent. 50c. per doz.

DIENER (Blight Resisting). New. Awarded Gold Medal at the Industries and Land Show, October 3, 1919. Extra strong plants, seed started in February. \$1.00 per doz.

THE BURBANK TOMATO. Claimed by Mr. Burbank to be the earliest in the world and very productive. Extra strong plants, seed started in February. \$1.00 per doz.

To grow good vegetables you must feed with fertilizer

Cut Flower Department

Our facilities for furnishing Fresh Cut Flowers, Floral Emblems, Bridal Bouquets and Floral Decorations, are unexcelled. Our extensive greenhouses and nursery enable us to grow novelties and add variety to our stock. We keep in touch with all the newest varieties of flowers and plants, also the most up-to-date arrangements.

Patrons wishing to express their thoughts in flowers, or rather

"Say it with Flowers"

can safely leave the selection to us, as we guarantee the best selection for each particular occasion.

We are members of the National Florists' Telegraph Delivery Association and can guarantee delivery of Cut Flowers and Floral Emblems in all parts of the United States and Canada on short notice.

Nursery Department

GUARANTEE

While we exercise the greatest care to have all trees, shrubs and plants sold by us true to name and free from disease, and hold ourselves prepared to replace, on proper proof all that may prove to be otherwise, we do not give any warranty, express or implied, with respect to them. Any and all such goods are sold upon the express condition and understanding that in case any of them prove to be untrue to name, unhealthy or otherwise defective, we shall not be held responsible for a greater amount than the original price of the goods.

REPLACING

We cannot replace trees which fail to live or make a deduction on plants lost by customers. The success of a tree depends upon its management, after it leaves our hands, and over its planting and after treatment we can have no possible control. A tree may be killed by too much or too little water, by drought, by being planted too deep or not deep enough, or by having its naked roots exposed to the wind for an hour; evergreens are especially endangered by this last treatment. One should also bear in mind that a tree planted in the Spring may show no life until Autumn, or even, fail to come out in full leaf until the succeeding Spring. We have often had trees reported as lost when a little patience on the part of the owner proved that the trees were really alive.
